INDEPENDENT AUDITOR'S REPORT

To the Selectboard Town of Berlin Berlin, Vermont

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Berlin, Vermont, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Berlin, Vermont, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the schedules of Town's proportionate share of the net pension liability and Town contributions in Schedule 3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual nonmajor fund financial statements (Schedules 1 and 2) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Schedules 1 and 2 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Schedules 1 and 2 are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 5, 2021 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Town's internal control over financial reporting and compliance.

Respectfully submitted.

January 5, 2021

Our discussion and analysis of the Town of Berlin, Vermont's financial performance provides an overview of the Town's financial activities for the year ended June 30, 2020. Please read it in conjunction with the Town's financial statements which begin on page 10.

Financial Highlights

Government-Wide Statements

- Net position of our governmental activities increased by \$151,631 or about 5%, compared to an increase of \$415,604 in the prior year. The net position of our business-type activities increased by \$180,954 or about 5%, compared to an increase of \$67,705 in the prior year.
- The cost of all of the Town's programs was \$4,282,654 in fiscal year 2020, compared to \$4,152,511 in fiscal year 2019, with no new programs added this year.

Fund Statements

- The General Fund reported an increase in fund balance this year of \$366,707, which was \$366,707 better than what was budgeted. This compares to an increase of \$139,991 in fiscal year 2019.
- The General Fund restricted fund balance was \$224,600 and is restricted for lister training, reappraisal, record restoration, and recreation. The committed fund balance of \$138,067 is for the items noted in Note 10. The assigned fund balance of \$24,076 is for highway equipment, capital budget, and highway materials. The nonspendable fund balance of \$262,392 consists of \$93,534 of prepaids, \$18,690 of highway inventory and the \$150,168 note due from the Water Fund.
- The nonmajor funds, as a whole, reported a net decrease in fund balance this year of \$14,797 compared to a decrease of \$49,944 in fiscal year 2019. This brings the combined fund balance from \$112,540 to \$97,743.
- The Cemetery Funds reported an increase in fund balance this year of \$28 from a balance of \$14,008 to \$14,036.
- The Water Pollution Fund reported an increase in net position of \$234,402 in fiscal year 2020, compared to an increase of \$167,957 in fiscal year 2019, resulting in an ending net position of \$1,958,123.
- The Water Division Fund reported a decrease in net position of \$53,448 in fiscal year 2020, compared to a decrease of \$100,252 in fiscal year 2019, resulting in an ending net position of \$1,722,614.

Using This Annual Report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (Exhibits A and B) provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements start on Exhibit C. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds.

Reporting the Town as a Whole

One of the most important questions asked about the Town's finances is, "Is the Town as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Town as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net position and change in net position. You can think of the Town's net position – the difference between assets and liabilities – as one way to measure the Town's financial health, or financial position. Over time, increases or decreases in the Town's net position is one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the Town's property tax base and the condition of the Town's roads, to assess the overall financial health of the Town.

In the Statement of Net Position and the Statement of Activities, we divide the Town into two kinds of activities:

- Governmental activities The Town's basic services are reported in the General Fund, including the highway department, general administration, and police. Property taxes, charges for services and state and federal grants finance most of these activities.
- Business-type activities The Town charges a fee to customers to help it cover all or most of the cost of certain services it provides. The Town's water pollution and water division are reported here.

Reporting the Town's Most Significant Funds

Our analysis of the Town's major funds begins on Exhibit C and provides detailed information about the most significant funds – not the Town as a whole. Some funds are required to be established by State law and by bond covenants. The Town's three categories of funds – governmental, proprietary and fiduciary – use different accounting approaches.

• Governmental fund — The Town's basic services are reported in the governmental fund, which focuses on how money flows into and out of that fund and the balance left at year-end that is available for spending. This fund is reported using a measurement focus called current financial resources, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in Exhibits D and F that are included in the financial statements.

- Proprietary fund When the Town charges customers for the services it provides whether to outside customers or to other funds of the Town these services are generally reported in a proprietary fund. A proprietary fund is reported in the same way that all business-type activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the Town's enterprise funds (a type of proprietary fund) are the same as the business-type activities reported in the government-wide statements but provide more detail and additional information, such as the statement of cash flows.
- <u>Fiduciary fund</u> —Fiduciary funds are used to account for resources held for the benefit of other parties. Fiduciary activity is not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The Town's fiduciary fund consists of the Cemetery Funds.

The Town as a Whole

The Town's combined net position increased by \$332,585 from a year ago – increasing from a balance of \$6,720,931 to \$7,053,516. Net position for the governmental activities increased from a balance of \$3,221,148 to \$3,372,779. Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the Town's governmental and business-type activities.

Net position of the Town's governmental activities increased by about 5% in fiscal year 2020 (\$3,372,779 compared to a balance of \$3,221,148). Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – increased from \$859,983 to \$1,088,476. Restricted net position decreased from \$333,613 to \$322,343 in fiscal year 2020. The net position of our business-type activities increased by \$180,954 in fiscal year 2020 (\$3,680,737 compared to \$3,499,783).

CHANGE IN NET POSITION	\$ 151,631	\$ 415,604	\$ (263,973)	\$ 180,954	\$ 67,705	\$ 113,249			

Governmental Activities

The increase in net position for governmental activities was \$151,631 in fiscal year 2020, compared to an increase of \$415,604 in fiscal year 2019.

The cost of all governmental activities this year was \$3,413,558. However, as shown in the Statement of Activities on Exhibit B, the amount that our taxpayers ultimately financed for these activities through Town taxes and other revenue was only \$3,045,103 because some of the cost was paid by those who directly benefited from the programs (\$110,165) or by other governments and organizations that subsidized certain programs with grants and contributions (\$258,290).

Table 3 presents the cost of each of the Town's three largest programs – general government, highway, and police – as well as each program's net cost (total cost less program revenues). The net cost shows the financial burden that was placed on the Town's taxpayers by each of these functions.

Table 3
Governmental Activities

	Total Cost	of Services	Net Cost of	of Services
	2020	2020 2019		2019
General government	\$ 926,897	\$ 823,458	\$ 726,148	\$ 640,177
Highway	1,078,429	1,055,684	962,875	658,025
Police	1,061,236	1,041,267	1,009,084	980,340
All others	346,996	328,329	346,996	328,329
Totals	\$3,413,558	\$3,248,738	\$3,045,103	\$2,606,871

Business-Type Activities

The net position for business type activities increased by \$180,954 in fiscal year 2020, compared to an increase of \$67,705 in fiscal year 2019.

The cost of all business-type activities this year was \$869,096. However, these costs were covered by those who directly benefited from the programs (\$1,028,570) and by other governments and organizations that subsidized certain programs with grants and contributions (\$3,608).

The Town's Funds

As the Town completed the year, its governmental funds (as presented in the Balance Sheet on Exhibit C) reported a combined fund balance of \$1,678,408, which is greater than last year's total fund balance of \$1,326,498. Included in this year's total increase in fund balance of \$351,910, was an increase of \$366,707 in the General Fund and a decrease of \$14,797 in the nonmajor governmental funds.

General Fund Budgetary Highlights

The Town's General Fund activity compared to budget is reported on Exhibit G. Some of the larger variances were as follows:

	• .	Budget	Actual	F	variance avorable favorable)
Revenues:			 	(011	200,020010)
State of Vermont	\$	193,500	\$ 275,292	\$	81,792
Taxes		3,055,668	3,118,015		62,347
Expenditures:					·
General Government		674,134	623,066		51,068
Police		978,020	1,031,636		(53,616)
Capital outlays		382,000	338,255		43,745
Other Financing Sources (Uses)					
Loan proceeds		0	150,000		150,000

State of Vermont revenue was greater than budget due to having received unbudgeted grants and appraisal assistance. Taxes exceeded budget due mostly to a decrease in deferred taxes and additional PILOT from the State. General government expenses were under budget due mostly to underspending of legal, office supplies, record restoration, heat and utilities. Police expenses were over budget due to costs related to unbudgeted grant expenses, excess wages and uniforms. Capital outlays were under budget due to trade in value of disposed vehicle. Loan proceeds were not budgeted.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2020, the Town had \$8,629,247 invested in a broad range of capital assets, including land, buildings and improvements, vehicles, infrastructure, plant, machinery and equipment, and infrastructure, net of accumulated depreciation. (See Table 4 below) This amount represents a net increase (including additions and deductions) of \$9,606.

Table 4
Capital Assets at Year-End
(Net of Accumulated Depreciation)

	 Acti	vitie	es		Acti	vitie	S	Totals			
	 2020		2019		2020		2019	2020			2019
Land	\$ 52,400	\$	52,400	\$	134,435	\$	106,000	\$	186,835	\$	158,400
Construction in progress	61,096		45,863		307,745		170,688		368,841		216,551
Land improvements	24,567		26,767		0		0		24,567		26,767
Plant	0		0		5,933,408		6,111,048		5,933,408		6,111,048
Buildings and impr.	156,864		167,307		0		0		156,864		167,307
Infrastructure	1,403,749		1,443,023		0		0		1,403,749		1,443,023
Machinery and equip.	23,267		30,821		0		0		23,267		30,821
Vehicles	 531,716		465,724		0		0		531,716		465,724
Totals	\$ 2,253,659	\$	2,231,905	\$	6,375,588	\$	6,387,736	\$	8,629,247	\$	8,619,641

This year's major additions for governmental activities were paving and culvert projects, doors, Down Town designation, new highway equipment and a police vehicle. The major additions to the business-type activities was work done on the sewer project and one of the water wells.

Debt Administration

At June 30, 2020, the Town had \$4,165,092 in notes and bonds outstanding versus \$4,064,412 on June 30, 2019 – an increase of \$100,680 – as shown in Table 5.

Table 5 Outstanding Debt at Year-End

	Governmental	Business-Type	
	Activities	Activities	Total
Balance - June 30, 2019	\$ 204,353	\$3,860,059	\$4,064,412
Proceeds	150,000	76,641	226,641
Principal payments	(62,654)	(63,307)	(125,961)
Balance - June 30, 2020	\$ 291,699	\$3,873,393	\$4,165,092

Proceeds received in fiscal year 2020 were for new highway equipment, one well, and the sewer project.

Economic Factors and Next Year's Budgets and Rates

When adopting the budget for fiscal year 2021, the Selectboard based their figures on previous year spending and departmental budget requests. The tax rate is set based on the voter approved budget amount for taxes divided by the Grand List.

Contacting the Town's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town Treasurer at Town of Berlin, 108 Shed Road, Berlin, Vermont 05602.

TOWN OF BERLIN, VERMONT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2020

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS	\$ 1,678,408
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the fund statements.	2,253,659
Unavailable revenue for property taxes is recognized on an accrual basis in the statement of net position, not for the modified cash basis.	120,053
Some liabilities, including net pension obligations, are not due and payable in the current period and, therefore, are not reported in the governmental funds: Net pension liability	(512 225)
Net pension hability	(512,225)
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in	
the governmental funds.	167,478
Long-term liabilities, including notes payable, are not due and payable in the current period and therefore are not reported as liabilities in the fund statements. Long-term liabilities at year end consist of:	
Bond and notes payable	(291,699)
Accrued compensated absences	 (42,895)
TOTAL NET POSITION - GOVERNMENTAL ACTIVITIES	\$ 3,372,779

TOWN OF BERLIN, VERMONT STATEMENT OF REVENUES, EXPENDITURES AND CHANGE IN FUND BALANCES GOVERNMENTAL FUNDS YEAR ENDED JUNE 30, 2020

TOWN OF BERLIN, VERMONT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGE IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2020

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ 351,910
Amounts reported for governmental activities in the statement of activities are different because:	
Some revenues are not collected for several months after the Town's year end; they are not considered "available" revenue in the fund statements. Unavailable property taxes decreased by \$26,990.	(26,990)
Repayment of notes, bonds and lease principal is an expenditure in the governmental funds; but the repayment reduces long-term liabilities in the statement of net position.	62,654
Loan proceeds are an other financing source in the governmental funds; but increases in long-term liabilities in the statement of net position.	(150,000)
Governmental funds report pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned, net of employee contributions, is reported as pension expense: Town pension contributions Tost of benefits earned, net of employee contributions (165,392)	(108,198)
In the statement of activities, accrued compensated absences are measured by the amounts incurred during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts actually paid). This year compensated absences accrued was less than what was paid by \$501.	501
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost (\$388,255) of those assets is allocated over their estimated useful lives and reported as depreciation expense (\$366,501). This is the amount by which depreciation expense exceeds capital outlays in the current period.	21,754
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 151,631

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020

The Town of Berlin (the Town) is a unit of local government organized under the statutes of the State of Vermont. The Town is governed by a five member Select Board. The Town provides various services as authorized and funded by State government or Town voters.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is primarily responsible for establishing GAAP for state and local governments through its pronouncements (including Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Town are discussed below.

Reporting Entity

The Town's basic financial statements include the accounts of all Town operations. The criteria for including organizations as component units within the Town's reporting entity are set forth in GASB 14 as amended by GASB 39, and Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards.

Based on the criteria, the Town has no component units.

Basic Financial Statements – Government-Wide Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (focusing on the Town's major funds). The government-wide financial statements categorize primary activities as either governmental or business type.

The government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts — invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities for which both restricted and unrestricted resources are available.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's governmental functions and business-type activities. The functions are also supported by general government revenue (property taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenue, including operating and capital grants and contributions. Program revenue must be directly associated with the governmental function (public works, etc.) or a business-type activity. Operating grants include operating-specific and discretionary grants while capital grants and contribution column reflects capital specific grants and contributions.

The net costs (by governmental function or business-type activity) are normally covered by general revenues (property taxes, intergovernmental revenues, interest income, etc.).

This government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basic Financial Statements - Fund Financial Statements

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are reported by major fund within the financial statements.

The Town's major funds consist of the General Fund, the Water Pollution Fund and the Water Division Fund. The non-major funds of the Town consist of the Conservation Fund, Asset Forfeiture, Montpelier Filtration Fund, and the Bike Path Fund. The General Fund is the main operating fund of the Town. The Water Pollution Fund accounts for the activity of the water pollution system. The Water Division Fund accounts for the activities of the Town's water supply system.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, and cash flows. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the Town:

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Water Pollution Fund and the Water Division Fund are major Enterprise Funds.

Fiduciary Funds

Fiduciary funds account for assets held in a trustee capacity (trust funds) or as an agent (agency funds) for the benefit of parties outside of the Town. The Town's fiduciary fund is the Cemetery Fund, which is a trust fund.

Measurement Focus

The accounting and financial reporting applied to a fund is determined by its measurement focus. Government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. This means that all assets and liabilities associated with the operation of these funds (whether current or noncurrent) are included on the balance sheet (or statement of net position). Fund equity is segregated into invested in capital assets, net of related debt; restricted net position; and unrestricted net position. Operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net position.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual

Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when transactions occur and expenses are recognized when incurred.

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenue is recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end for property taxes and six months for other revenue (grants and loans). Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, compensated absences, claims and judgments, and certain prepaids, which are recognized when due/paid.

Government-wide and Proprietary Fund Net Position

Net position represents the difference between assets and liabilities in the statement of net position. Net position is divided into three components:

<u>Invested in capital assets</u>, net of related <u>debt</u> – consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.

<u>Restricted net position</u> – consist of assets that are restricted by the Town's creditors, enabling legislation, by grantors, and by other contributors.

<u>Unrestricted net position</u> – all other net position is reported in this category.

Unavailable Revenue

Unavailable revenue consists of the following:

General Fund – Delinquent taxes not collected within sixty (60) days after year end and other receivables not collected within six months after year end.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

GASB Statement No. 68 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Vermont Municipal Employees' Retirement System (VMERS) and additions to/deductions from VMERS's fiduciary net position have been determined on the same basis as they are reported by VMERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows of Resources

The Town reports decreases in net assets that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statements of net position. The deferred outflows of resources reported in this year's financial statements are for 1) the difference between expected and actual experience 2) changes in assumptions 3) contributions made subsequent to the measurement date 4) differences between projected and actual investment earnings and 5) changes in proportion and differences between employer contributions and proportionate share of contributions. No deferred outflows of resources affect the governmental funds financial statements in the current year.

Deferred Inflows of Resources

The Town's statements of net position and its governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period(s).

Deferred inflows of resources are reported in the Town's statement of net position for differences between expected and actual experience and the changes in proportion and differences between employer contributions and proportionate share of contributions. The deferred inflow of resources is attributed to pension expense over a total of 5 years, including the current year.

In its governmental funds, the only deferred inflow of resources is for revenues that are not considered available. The Town has one item which occurs because governmental fund revenues are not recognized until available (collected not later than sixty days after the end of the Town's fiscal year for property taxes, and six months for all other revenues) under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, unavailable property tax revenue is reported in the governmental funds balance sheet. The Town did not have deferred inflows of resources to report in its proprietary fund financial statements for the current year.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Equity

GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions" provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

<u>Nonspendable fund balances</u> - Indicates the portion of fund equity that cannot be spent due to their form (e.g. inventories, prepaids and long-term receivables) or funds that legally or contractually must be maintained intact.

<u>Restricted fund balances</u> - Indicates the portion of fund equity that is mandated for a specific purpose by external parties, constitutional provisions, or enabling legislation (e.g. federal and state grants, bondholders, trust and trustee accounts).

<u>Committed fund balances</u> - Indicates the portion of fund equity that is set aside for a specific purpose by the Town's highest level of decision making authority, the voters, as a result of articles passed at Annual or Special Meetings.

<u>Assigned fund balances</u> - Indicates the portion of fund equity that is set aside with the intent to be used for a specific purpose by the Selectboard. Assigned funds cannot cause a deficit in unassigned fund balance.

<u>Unassigned fund balances</u> - Indicates the portion of fund equity that has not been classified in the previous four categories. All funds in this category are considered spendable resources. This category provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

When an expenditure is incurred that qualifies for payment from either of the three unrestricted fund balance categories, it will be applied in the following order:

- 1. Committed
- 2. Assigned
- 3. Unassigned

Cash and Cash Equivalents

The Town has defined cash and cash equivalents to include cash on hand, demand deposits, cash with fiscal agent, and short-term investments with original maturities of three months or less from the date of acquisition.

Inventory

Inventory in the General Fund consists of expendable supplies held for consumption by the Highway Department and is valued at cost, using the first-in/first-out method. Inventory is recorded as an expenditure when consumed rather than when purchased.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Net interest costs are capitalized on projects during the construction period.

Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and improvements	30 years
Infrastructure	15 - 30 years
Machinery and equipment	5-10 years
Vehicles	4-10 years

GASB No. 34 requires the Town to report and depreciate new general infrastructure assets prospectively starting July 1, 2003. General infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc.

Accrued Compensated Absences

Government-Wide Financial Statements – All vested or accumulated vacation leave is reported as a liability and an expense on the government-wide financial statements. Sick days are not accrued since they are not paid when the employee terminates employment.

<u>Fund Financial Statements</u> - Vested or accumulated vacation leave that has matured is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are not reported as a liability in the fund financial statements and no expenditure is reported for these amounts. Unused sick days may be accumulated to use in the following year, but sick days are not accrued since they are not paid when the employee terminates employment.

Budgetary Accounting

The Town employs a formal budgetary process as a management control device during the year for the General Fund. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget to Actual, presents comparisons of the budget with actual data. The budget numbers shown are on the same basis as the financial statements.

The Town is not legally required to adopt a budget for funds other than the General Fund. Therefore, a budgetary comparison is not presented for those funds.

Interfund Activities

Transactions between funds that are representative of lending/borrowing arrangements that are outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e.,

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

the current portion) or "advances to/from other funds" (i.e., the non-current portion). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund reserve account (nonspendable fund balance) in the applicable funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Prepaid Expenses

Certain payments to vendors reflect costs that are applicable to future accounting periods and are recorded as prepaid expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - DEPOSITS

The Treasurer is authorized to invest excess deposits and investments according to policies set by the Selectboard.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. As of June 30, 2020, \$2,469,439 of the government's bank balance of \$2,917,002 was exposed to custodial credit risk. A summary of the Town's custodial credit risk is as follows:

Rank

	Dank
	Balance
Insured by FDIC	\$ 447,563
Uninsured, collateralized by securities held	
by the pledging financial institution	2,469,439
Total	\$ 2,917,002

Of the Town's \$2,917,002 bank balance, \$405,636 were CDs recorded as investments. Interest rates on the CDs range from 2.0% to 2.5% and mature between January 2022 and June 2025.

NOTE 3 - PROPERTY TAXES

Property taxes in the Town of Berlin support the School District as well as Town operations. Property taxes attach as an enforceable lien on property owned as of April 1st. Listers establish a grand list of all property and the Selectboard sets the tax rate required to raise the tax revenue authorized by Town and School District voters and the Vermont Agency of Education. Taxes are payable in four installments, in August, November, February and May. All late payments are subject to an 8% penalty, and interest.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 4 – INTERFUND LOAN

During fiscal year 2015, the General Fund loaned the Water Division \$143,733 at 0% interest. The note is a demand note that is due in its entirety on June 30, 2021. In fiscal year 2020, \$22,000 was repaid on this loan. In March 2020, the General Fund loaned an additional \$28,435 to the Water Division at 0% interest. The note is a demand note that is due in its entirety on March 4, 2021. The total balance due at June 30, 2020 was \$150,168.

NOTE 5 - INTERFUND ACTIVITY

NOTE 11 - PENSION PLAN

DEFINED CONTRIBUTION PLAN

The State of Vermont authorized VMERS to establish a new defined contribution (DC) plan available to members on July 1, 2000. The DC plan is a tax-sheltered money purchase plan under IRC 401(a). The plan includes a 5.0% employee contribution and a 5.125% employer contribution. 100% vesting occurs after one year of municipal service.

Of the Town's total payroll of \$1,135,820, \$80,194 was covered under the VMERS defined contribution plan. The total contributions to this plan by the employer were \$4,110 and by the employees were \$4,010.

VMERS

Plan description. The Town contributes to the Vermont Municipal Employees' Retirement System (VMERS) which is a cost sharing multiple employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. It is designed for school districts and other municipal employees that work on a regular basis and also includes employees of museums and libraries if at least half of that institution's operating expenses are met by municipal funds. An employee of any employer that becomes affiliated with the system may join at that time or at any time thereafter. Any employee hired subsequent to the effective participation date of their employer who meets the minimum hourly requirements is required to join the system. During the year ended June 30, 2019, the retirement system consisted of 379 participating employers.

The plan was established effective July 1, 1975, and is governed by Title 24, V.S.A Chapter 125.

The general administration and responsibility for formulating administrative policy and procedures of the retirement system for its members and their beneficiaries is vested in the Board of Trustees, consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system, and two employer representatives — one elected by the governing bodies of participating employers of the system and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont School Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service.

Summary of System Provisions

Membership is open to all full time employees of participating municipalities. The municipality elects coverage under Groups A, B, C, or D. The Town only has Group B members.

Creditable service is service as a member plus purchased service.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 11 - PENSION PLANS (Continued)

For the year ended June 30, 2020, the Town's contributions to the Plan were \$57,194.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. At June 30, 2020, the Town reported a liability of \$512,225 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2019, the Town's proportion was 0.29524%, which was an increase of 0.000704% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Town recognized pension expense of \$165,392. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Out	eferred flows of sources	Deferred Inflows of <u>Resources</u>			
Difference between expected and actual experience	\$	66,364	\$	4,428		
Changes in proportion and differences between Town contributions and proportionate share of contributions		7,441		11,083		
Changes in assumptions		17,102		0		
Difference between projected and actual investment earnings		34,888		0		
Member contributions subsequent to the measurement date Total	\$	57,194 182,989	\$	0 15,511		

Of the \$182,989 of deferred outflows of resources, \$57,194 was from the Town's contributions subsequent to the measurement date which will be recognized as pension expense in the year ending June 30, 2021. Other amounts (\$110,284) reported as deferred outflows of resources net of deferred inflows of resources will be recognized in pension expense as follows:

Year ending June 30,

2021	\$ 44,160
2022	22,904
2023	24,756
2024	18,464

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 11 - PENSION PLANS (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Interest rate of return -7.5%, net of pension plan investment expenses, including inflation.

Salary increase - 5% per year

Mortality:

Death in Active Service:

Groups A, B, C - 98% of RP-2006 Mortality Tables blended 60% Blue Collar Employee, 40% Healthy Employee with generational projection using Scale SSA-2017.

Group D - 100% of RP-2006 Blue Collar Mortality Table with generational projection using Scale SSA-2017.

Healthy Post-retirement:

Groups A, B, C - 98% of RP-2006 Mortality Table, blended 60% Blue Collar Annuitant, 40% Healthy Annuitant with generational projection using Scale SSA-2017.

Group D - 100% of RP-2006 Blue Collar Annuitant Table with generational projection using Scale SSA-2017.

Disabled Post-retirement:

All groups - RP-2006 Disabled Mortality Table with generational projection using Scale SSA-2017.

Spouse's age – females three years younger than males.

Cost of Living Adjustments – 1.15% for Group A members and 1.3% for Groups B, C and D members. The January 1, 2019 and January 1, 2020 COLAs are 1.3% and .8% respectively, for all groups.

Actuarial Cost Method – Entry Age Actuarial Cost Method. Entry Age is the age at date of employment or, if date is unknown, current age minus years of service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salary, with Normal Cost determined using the plan of benefits applicable to each participant.

Assets – The valuation is based on the market value of assets as of the valuation date, as provided by the System. The System uses an "actuarial value of assets" that differs from market value to gradually reflect year-to-year changes in the market value of assets in determining the contribution requirements.

Inflation - 2.5%

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 11 - PENSION PLANS (Continued)

Long-term expected rate of return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2019, is summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global Equity	29.00%	6.90%
US Equity - Large Cap	4.00%	5.94%
US Equity - Small/Mid Cap	3.00%	6.72%
Non-US Equity - Large Cap	5.00%	6.81%
Non-US Equity - Small Cap	2.00%	7.31%
Emerging Markets Debt	4.00%	4.26%
Core Bond	14.00%	1.79%
Non-Core Bonds	6.00%	3.22%
Short Quality Credit	5.00%	1.81%
Private Credit	5.00%	6.00%
US TIPS	3.00%	1.45%
Core Real Estate	5.00%	4.26%
Non-Core Real Estate	3.00%	5.76%
Private Equity	10.00%	10.81%
Infrastructure/Farmland	2.00%	4.89%
-	100.00%	

Discount Rate – The discount rate used to measure the total pension liability was 7.5%. In accordance with paragraph 29 of GASB 68, professional judgement was applied to determine that the System's projected fiduciary net position exceeds projected benefit payments for current active and inactive members for all years. The analysis was based on the expectation that employers will continue to contribute at the rates set by the Board, which exceed the actuarially determined contribution, which is comprised on an employer normal cost payment and a payment to reduce the unfunded liability to zero by June 30, 2038. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the net pension liability calculated using the discount rate of 7.5%, as well as what the proportionate share would be if it were calculated using a discount rate that is 1 percent lower (6.5%) or 1 percent higher (8.5%) than the current rate:

1% De	ecrease (6.5%)	Discou	int Rate (7.5%)	1% In	crease (8.5%)
\$	839,972	\$	512,225	\$	240,911

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2020 (Continued)

NOTE 11 - PENSION PLANS (Continued)

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the State of Vermont's Comprehensive Annual Financial Report (CAFR). The CAFR can be viewed on the State's Department of Finance and Management website.

NOTE 12 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. The Town maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town. Settled claims have not exceeded this commercial coverage in any of the past three (3) fiscal years.

NOTE 13 - COMMITMENTS

In September 2016, the Town entered into a three year contract for ambulance service with the Town of Barre. The contract fees are based on a per capita fee with ranges from \$29.52 for fiscal year 2017 up to \$33.79 per capita for fiscal year 2019. The contract was extended for two additional years at the per capita rates of \$36.15 and \$38.68. The amount paid in fiscal year 2020 under this contract was \$91,315.

NOTE 14 - CONTINGENCY

The Town participates in state grant programs that are subject to audits by the grantors or their representatives. The audits of these programs for or including the year ended June 30, 2020 have not yet been reviewed by the grantor agencies. Accordingly, compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenses which may be disallowed by the granting agencies cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

NOTE 15 – TAX ABATEMENTS

The State of Vermont operates a Current Use Program and enters into tax abatement agreements directly with landowners. Enrolled landowners are required to manage their land in accordance with an approved plan, and the land is subject to a lien to recover taxes abated if the land is ever developed. In exchange, the landowners receive a reduction in assessed value on their property tax bills, which results in a reduction of property tax revenue to the Town. For fiscal year 2020, the amount of Town property taxes forgone as a result of the Current Use Program was approximately \$55,600. In accordance with 32 V.S.A. § 3760, the State of Vermont limits the total loss of revenue to zero by providing the Town with a Hold Harmless payment in the following year that is equivalent to the taxes previously foregone.

NOTE 16 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through January 5, 2021, the date which the financial statements were available for issue. In July 2020, the Town obtained a bond anticipation line of credit from Community Bank, N.A. for the sewer extension project. The line of credit is for \$2,196,000 at 1.6% due July 21, 2021. As of January 5, 2021, \$1,522,523 has been drawn on the line of credit.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Selectboard Town of Berlin Berlin, Vermont

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Berlin, Vermont, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements and have issued our report thereon dated January 5, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,
